EDUCATION

University of Washington

Bachelor of Science in Computer Science, Minor in Business (GPA: 3.68)

Seattle, WA

Sept. 2024 – present

Highline College

Associate of Arts (GPA: 3.98)

Des Moines, WA

Sept. 2022 – June 2024

TECHNICAL SKILLS

Languages: Java, Python, C++, C, SQL, JavaScript, HTML/CSS

Frameworks/Technologies: React, Next.js, Node.js

Developer Tools: Git, GitHub, VS Code

Design: Figma, Adobe Illustrator, Canva, InShot

RELEVANT COURSES

Computer Science: Data Structures and Algorithms, Systems Programming, Hardware/Software Interface, Intro to Data Management, Object-Oriented Programming, Discrete Mathematics

Math: Calculus, Linear Algebra, Probability and Statistics

EXPERIENCE

Philips

Acoustic Engineering Intern

June 2026 – Present

Bothell, WA

- Designed and implemented an internal database and scalable directory architecture to support restoration and management of legacy ultrasound machine presets
- Developed software tools in Python and C++ to automate preset recovery workflows and improve deployment consistency across imaging systems
- Conducted validation testing using live scan models and partnered with sonographers and clinical scientists to gather feedback and verify functionality
- Built a batch-processing tool for ultrasound preset preparation, reducing sales demo setup time by approximately 70%

University of Washington

Undergraduate Teaching Assistant

Sept. 2025 – Present

Seattle, WA

- Lead weekly tutorial sessions for undergraduate students, reinforcing core computer science concepts including algorithms, data structures, and programming fundamentals
- Provide individualized academic support through 1-on-1 mentoring sessions, helping students identify learning gaps and improve problem-solving strategies
- Evaluate programming assignments and deliver detailed technical feedback to strengthen code quality, debugging skills, and software development practices

Microsoft x University of Washington

Mentee

Sept. 2023 – June 2024

Seattle, WA

- Collaborated with Microsoft engineers and mentors to develop career readiness, expand exposure to emerging technologies, and build a professional network in the tech industry
- Participated in online coffee chats with software engineers, gaining insights into work-life balance and strategies to leverage experiences for career growth

PROJECTS

ABCMouth | *Figma, UX/UI Design, UX Research, Prototyping*

Jan. 2026

- Designed an accessible speech-learning platform to address barriers to traditional speech therapy for individuals with speech impediments and non-native English speakers
- Created 20+ screens, wireframes, and user flows in Figma for a mobile and web experience featuring pronunciation exercises, facial movement training, and guided audio lessons
- Conducted usability testing with non-native English speakers to improve navigation, lesson flow and overall user experience
- Integrated gamification features including levels, leaderboards, rewards, and daily streaks to encourage engagement and confidence-building; earned runner-up recognition at a competitive hackathon

NextStep | *HTML/CSS/JavaScript, Python, Node.js, Ollama API, Git*

Oct. 2025

- Designed and developed an AI-powered job-matching platform that analyzes resumes and recommends relevant opportunities
- Built a multilingual Chrome extension with an AI chatbot and real-time translation features
- Created a resume translation and auto-generation pipeline to convert foreign-language experience into polished, U.S.-standard resumes
